

# BAGSHAWE CAVERN

From surveys by TSG, EEG, & EPC

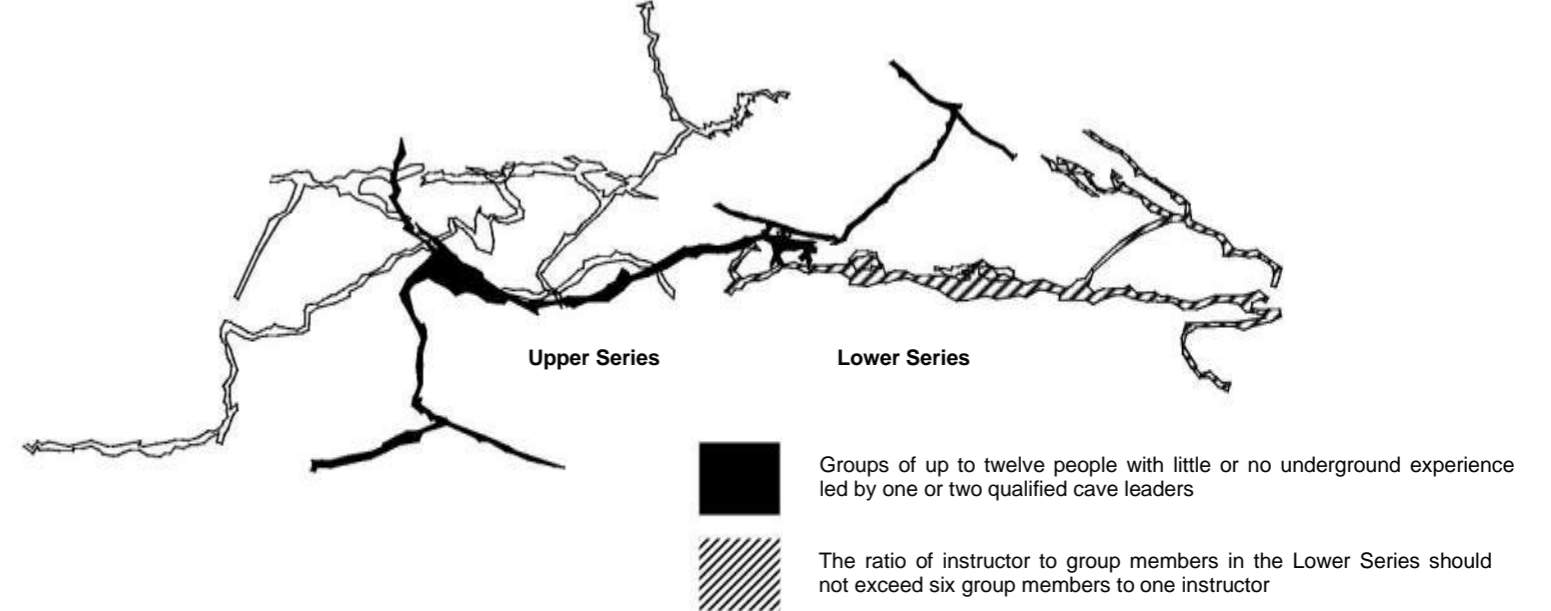

## Recreational Caving

Experienced and independent cavers have access to the Upper and Lower Series of Bagshawe Cavern. It is vital that recreational cavers are aware of the fragile nature of the Lower Series and are extremely careful to avoid damage

## Instructed Caving

This activity is suited to the Upper Series but smaller more experienced groups may occasionally be taken into the Lower Series.

## Experienced Caver Trips

Only experienced cavers should access these controlled areas, the Full Moon Series and New Series. They should exercise extreme caution and be especially mindful of the areas not marked by tape. For these sensitive areas party size is encouraged to be limited to four people. These areas are now protected by gates using a Derbyshire Key.
